

## Research/teacher profile of a person

	<b>Date of last update</b>	31/12/2022

### I. Basic information

<b>I.1 Surname</b>	Hajdúková
<b>I.2 Name</b>	Tatiana
<b>I.3 Degrees</b>	doc., RNDr., PhD.
<b>I.4 Year of birth</b>	1963
<b>I.5 Name of the workplace</b>	Department of Informatics and Management
<b>I.6 Address of the workplace</b>	Academy of the Police Force in Bratislava, Sklabinská 1, 835 17 Bratislava
<b>I.7 Position</b>	Associate Professor
<b>I.8 E-mail address</b>	<a href="mailto:tatiana.hajdukova@minv.sk">tatiana.hajdukova@minv.sk</a> <a href="mailto:tatiana.hajdukova@akademiapz.sk">tatiana.hajdukova@akademiapz.sk</a>
<b>I.9 Hyperlink to the entry of a person in the Register of university staff</b>	<a href="https://www.portalvs.sk/regzam/detail/63">https://www.portalvs.sk/regzam/detail/63</a>
<b>I.10 Name of the study field in which a person works at the university</b>	Security Sciences
<b>I.11 ORCID iD</b>	<a href="https://orcid.org/0000-0002-2313-4568">https://orcid.org/0000-0002-2313-4568</a>

### II. Higher education and further qualification growth

	<b>II.a Name of the university or institution</b>	<b>II.b Year</b>	<b>II.c Study field and programme</b>
<b>II.1 First degree of higher education</b>	-	-	-
<b>II.2 Second degree of higher education</b>	Faculty of Mathematics and Physics, Comenius University in Bratislava	1988	Theory of Teaching Physics
<b>II.2a Rigorous procedure</b>	Faculty of Mathematics and Physics, Comenius University in Bratislava	1989	Security Services
<b>II.3 Third degree of higher education</b>	Academy of the Police Force in Bratislava	2013	Theory of Police Sciences
<b>II.4 Associate professor</b>	Academy of the Police Force in Bratislava	2019	Protection of Persons and Property
<b>II.5 Professor</b>	-	-	-
<b>II.6 Doctor of Science (D.Sc.)</b>	-	-	-
<b>II.7 Further education</b>	The Methodology and Pedagogy Center in Bratislava	2007	Specialized Qualification Study of Informatics

### III. Current and previous employment

<b>III.a Occupation-position</b>	<b>III.b Institution</b>	<b>III.c Duration</b>
----------------------------------	--------------------------	-----------------------

University teacher	Academy of the Police Force in Bratislava	2008 - present 2008 Assistant 2013 Assistant Professor 2020 Associate Professor
Methodologist	The Methodology and Pedagogy Center in Bratislava	od 2001 do 2011
High School Teacher	High School of Jána Papánka, Vazovova 6, Bratislava	od 1988 do 2002

#### IV. Development of pedagogical, professional, language, digital and other skills

IV.a Activity description, course name, other	IV.b Name of the institution	IV.c Year
Datamining	Center for Learning ACREA	2021
Monitorovanie, odhaľovanie, objasňovanie a vyšetrovanie extrémizmu v kyberpriestore	Department of Crime Prevention of Ministry of Interior of the Slovak Republic	2016
Školenie pre vyšetrovateľov a manažérov/koorinátorov trestných činov, hlásení, či incidentov počítačovej kriminality, vrátane počítačovej forenznej analýzy	Bureau of Criminal Police, Department of Cyber Criminality, Police Force of the Slovak Republic	2016
Combating child sexual exploitation on the internet through undercover activities	Cepol HQ, Budapest, Hungary	2016
Child Sexual Exploitation On-line	MEPA seminarr	2016
Train the Trainer Course	Centre for Cybersecurity & Cybercrime Investigation, UCD School of Computer Science, University Collage Dublin	2015
Introduction to Wireless Investigations	Centre for Cybersecurity & Cybercrime Investigation, UCD School of Computer Science, University Collage Dublin	2015
Kurz Analýza kategorizovaných dát I., II., III.	Center for Learning ACREA	2015
Kurz Lineárna a regresná analýza	Center for Learning ACREA	2015
Kurz Analýza časových radov	Center for Learning ACREA	2015
Cyber Crime versus Cyber Security	Cepol HQ, Tampere, Fínsko	2014
Kurz Digital Forensic Analysis and Investigation	Fibamo Ltd.	2013
Kurz Network Forensic	Network Forensic	2013
Postgraduálne štúdium v oblasti informačnej bezpečnosti	Ministry of Finance of the Slovak Republic	2013

#### V. Overview of activities within the teaching career at the university

1.	<p>AFA BACIGÁL, Ivan - HAJDÚKOVÁ, Tatiana Overcoming problems in examining and investigating sexual abuse of children online in practice aut. Ivan Bacigál, aut. Tatiana Hajdúková. In: Law-Security-Information [electronic source] : Collection of articles from the 4th international conference "Solving electronic abuse and cybercriminality" that took place on 9.10 - 10.10. in Jihlava. - ISSN 2336-3657. - Vol. 1, Special Edition (2014), online, 12 p. Full text available at: <a href="http://www.teorieib.cz/pbi/?section=articles">http://www.teorieib.cz/pbi/?section=articles</a> Sign.: copy [BACIGÁL, Ivan (50%) - HAJDÚKOVÁ, Tatiana (50%)]</p> <p>Authors in this scientific work reflect on a global social problem that has been present since the widespread presence of the internet. One of the biggest risks in this environment is contactless exploitation and abuse of children by sexual predators, who use the anonymity this environment provides, as well as advantages of remote communication that bypasses limits of countries and continents. Increase in the intensity of this problem during the COVID 19 pandemic points out that this problem is ever more present and acute. According to the criteria of the Scientific Council of the Academy of the Police Force in Bratislava, which is a published article on invitation on a international scientific conference, which has a real contribution in context of public internet network. This is also one of the outcomes of the scientific task "Safety of children in virtual space". Therefore, the author put this in the A+ category.</p>		
2.	<p>AEC 4 HAJDÚKOVÁ, Tatiana Improving Road Safety and Eliminating Consequences of Traffic Accidents in the European Union : Part VII / aut. Tatiana Hajdúková, rec. Miroslav Lisoň, rec. Krystyna Lisiecka, rec. Izabela Nowicka. In: Selected Social and Political Aspects of Internal Security / zost. Jacek Dworzecki. - New York : Iglobal Writer Inc., Pro Pomerania Foundation Poland, 2015. - ISBN 978-83-63680-80-0. - S. 123-134. Sign.: F 18540 [HAJDÚKOVÁ, Tatiana (100%)]</p> <p>This work deals with establishing new tools and presents accepted legislative measures on EU scale, which are designed to improve safety of road traffic, specifically traffic accidents. Based on statistical pointers it evaluates estimated effectivity of ambitious goals of EU commision to drastically reduce number of victims killed in traffic accidents. This is done by comparing the most and least successful states per 10,000 capita. Accodging to the partition of articles, this is a chapter in a scientific monography published by an international publisher, which has an objective importance on a european scale for road traffic safety. Moreover, this is one of the outcomes of the scientific task "Methods of Processing Relevant Information". Therefore, the author put this research output in the A+ category.</p>		
3.	<p>AFC 5 HAJDÚKOVÁ, Tatiana Road traffic safety with focus on demographic structure of the population / aut. Tatiana Hajdúková. In: RELIK 2019 [electronic document] : the 12th international scientific conference : reproduction of human capital - mutual links and connections / zost. Jitka Langhamrová, zost. Tomáš Löster, zost. Jana Vrabcová Langhamrová, zost. Dana Zachariášová. - Praha : Oeconomica Publishing House, 2019. - ISBN 978-80-245-2329-3. - pp. 85-94. Full text: <a href="https://relik.vse.cz/insection/55">https://relik.vse.cz/insection/55</a> [HAJDÚKOVÁ, Tatiana (100%)]</p> <p>Changes accompanying demographic development in Europe are rarely put into consideration together with road traffic safety, hence the article addresses this issue. Following an assumption that the number of senior citizens will be continuously increasing, we deem it important to be aware of the consequences of changes in road traffic safety which are brought about by this demographic movement. The following article is aimed to draw a comparison between road traffic participants who were killed in a traffic car accident in 2016 in the European Union, the Czech Republic, and the Slovak Republic in terms of age of the participants, as well as how they were involved in the traffic accident.</p>		

	<p>Scientific work is published in a journal indexed in an international professional database WOS. Moreover, it is one of the outcomes of scientific task "Methods of Processing Relevant Information". Therefore, the author put this research output in the A+ category.</p>
4.	<p>AEC 1 HAJDÚKOVÁ, Tatiana Modelling correlative relationships between the road traffic accidents, road infrastructure, and road traffic density. / aut. Tatiana Hajdúková. In: Cyber security, Economic criminality, and safety management in relative dependence. [print] / aut. collections of authors, rec. Branislav Lacko, rec. Petr Hrůza. - Praha : Police Academy of the Czech Republic, 2020. - ISBN 978-80-7251-505-9. - pp. 133-151. Sign.: F 20344 [HAJDÚKOVÁ, Tatiana (100%)]</p> <p>In this scientific work we researched dependence between road infrastructure and road traffic density, which are beside participants of road traffic the key factors which determine the overall traffic accident rate. The empirical part of this article is based on data provided by the Traffic Police of the Slovak Republic. Using this data we were able to analyze the whole dataset, without the uncertainty that is caused by choosing a subset of the whole dataset. Chosen parameters of the analysis represent universal factors of global importance, which greatly influence the traffic accident rate.</p> <p>This was published as a part of a scientific monography published by an international publisher, which has an objective importance on a european scale for road traffic safety. Moreover, this is one of the outcomes of the scientific task "Methods of Processing Relevant Information". Therefore, the author put this research output in the A+ category.</p>
5.	<p>AFC HAJDÚKOVÁ, Tatiana Analysis of the number of reported crimes with regard to severity on a regional basis in the Slovak Republic, 2010-2019 / aut. Tatiana Hajdúková. In: RELIK 2020 [electronic document] : Reproduction of human capital - mutual links and connections : conference proceedings / zost. Jitka Langhamrová, zost. Jana Vrabcová. - Praha : Prague University of Economics and Business, 2020. - ISBN 978-80-245-2394-1. - pp. 97-109 [HAJDÚKOVÁ, Tatiana (100%)]</p> <p>The goal of this article is to give an overview of the development of criminality in the Slovak republic in the last 10 years, with an emphasis on the severity of the crime, which is defined by the criminal code. Throughout the article, we point out criminality over a period of 10 years and study each category of crimes on a regional basis. The results of this analysis can be further used to improve the effectiveness of trial proceedings by taking regional differences into account and therefore having the necessary data to efficiently split available manpower and resources. For instance, regional differences are extreme in district Bratislava 1, where criminality is considerably higher than in any other district in Slovakia.</p> <p>Scientific work is published in a journal indexed in an international professional database WOS. Moreover, it is one of the outcomes of scientific task "Effectivity of the pretrial - research, evaluation, criteria and influence of legislative changes". Therefore, the author put this research output in the A+ category.</p>

2.	<p>ADE      HAJDÚKOVÁ, Tatiana - BECKOVÁ, Daniela Importance of education and training of young novice drivers / aut. Tatiana Hajdúková, aut. Daniela Becková. In: EUREKA: Social and Humanities [elektronický dokument]. - ISSN 2504-5563. - ISSN 2504-5571. - Vol. 4, No. 3 (2019), pp. 30-37. [HAJDÚKOVÁ, Tatiana (90%) - BECKOVÁ, Daniela (10%)]</p> <p>The study evaluates the development and current state of the road traffic accidents resulting in the death of road users in EU countries. The slowdown in improving EU results over recent years is evidence that the most effective remedial measures have already been applied. The results of other measures will no longer be as effective as they have been so far and will require more money, energy and effort to be invested with slower progress than 15 years ago. The analytical part of the study points to the causes of traffic accidents resulting in injury or death of the road users in Slovakia. Multidimensional scaling has been used to identify differences in the causes of traffic accidents according to the age of drivers, the culprits of traffic accidents. The results point to the need for a graduated licensing system for young novice drivers.</p> <p>This article is of global importance and was published by an international publisher. Moreover, this is one of the outcomes of the scientific task "Methods of Processing Relevant Information". Therefore, the author put this research output in the A+ category.</p>
3.	<p>AFD      HAJDÚKOVÁ, Tatiana - MAREK, Jaroslav - MARCINEK, Milan Fire units in Slovakia : analysis of outgoings / aut. Tatiana Hajdúková, aut. Jaroslav Marek, aut. Milan Marcinek. In: Aplimat 2019 [electronic document] : 18th conference on Applied mathematics proceedings / zost. Dagmar Szarková, aut. Daniela Richtáriková, zost. Peter Letavaj, rec. Andrea Caranti, rec. Jan Chvalina. - Bratislava : Slovak Technical University in Bratislava, 2019. - ISBN 978-80-227-4884-1. - pp. 482-491. - SCOPUS. Sign.: copy [HAJDÚKOVÁ, Tatiana (34%) - MAREK, Jaroslav (33%) - MARCINEK, Milan (33%)]</p> <p>This scientific work points out changes in function of voluntary fire forces in 2016 compared to previous years. These changes are related to legislative changes, most importantly to legislative n. 37/2014, as amended, concerning voluntary fire forces in the Slovak Republic, and certain other directives. Similarly to other states of the European Union, providing fire safety is greatly dependent on functioning of voluntary fire forces, hence the efforts to systematically increase their participation and improve their effectivity.</p> <p>This study is published in an international journal indexed in global professional database SCOPUS, therefore the author put this in the A+ category.</p>
4.	<p>AEC 1      HAJDÚKOVÁ, Tatiana Modelling correlative relationships between the road traffic accidents, road infrastructure, and road traffic density. / aut. Tatiana Hajdúková. In: Cyber security, Economic criminality, and safety management in relative dependence. [print] / aut. collections of authors, rec. Branislav Lacko, rec. ## VII. Overview of organizational experience related to higher education and research/other activities

### VII.1 The most significant positions and memberships in scientific and professional institutions/associations and editorial boards (maximum of five)

VII.1a Activity, position	VII.1b Name of the institution/board	VII.1c Duration
Member	The scientific Council of the Police Force in Bratislava	2022 - present
Member	Interdepartmental group of experts focused on connecting relevant services for fighting crime in an expert and coordinated manner.	2016 - present
Member	Order of student research and professional activities (ŠVOČ) at the Academy of the Police Force in Bratislava	2019 present

### VII.2 The most significant positions and memberships in scientific and professional institutions/associations and editorial boards for the last six years (maximum of five)

VII.2a Activity, position	VII.2b Name of the institution/board	VII.2c Duration
Member	Interdepartmental group of experts focused on connecting relevant services for fighting crime in an expert and coordinated manner.	2016 prezent
Member	Order of student research and professional activities (ŠVOČ) at the Academy of the Police Force in Bratislava	2019 prezent

## VIII. Overview of international mobilities and visits oriented on education and research/other activities in the respective field of study

VIII.a Name of the institution	VIII.b Address of the institution	VIII.c Duration (indicate the duration of stay)	VIII.d Mobility scheme, employment contract,
--------------------------------	-----------------------------------	---	--

			<b>other (describe)</b>
University of Applied Police Sciences Rothenburg	Rotenburg/OL (Germany)	19. - 22. 9. 2012	Work stay
Police Academy of the Czech Republic in Prague	Prague (Czech Republic)	10. – 13..4.. 2016	Programme mobility . Erasmus+
Police University College	Tampere (Finland)	26.10.2014– 31.10.2014	Educational course „Cyber Crime versus Cyber Security“
European Union Agency for Law Enforcement Training	Budapest (Hungary)	29.11.- 3.12.2015	Educational course Combating child sexual exploits on the internet through undercover activities
Technical University in Ostrava, Faculty of Electrotechnics and Informatics	Ostrava Česká republika)	19.1. - 23.1.2020	Educational course

## IX. Other relevant facts

### IX.1 Characteristics of activities related to respective field of study

Actively take part in preventive activities mostly in area of improving safety of children in online space. I work together with multiple elementary schools, as well as with with department of communication and prevetion of the Ministry of the Interior of the Slovak Republic. I have designed didactic tools to give information to children in a way that is natural and understandable to them.

I also work together with Institution MEPA (an institution that organizes activities of further education with goal of reducing international criminality). On their behalf I organized a conference“Sexual abuse of children online”, which happened 10. 5. 2016. The goal of the conference was to point out increasing danges of virtual communaction, mostly focused on children. Over 60 attendees from 6 member countries of MEPA attended – experts working on investigation as well as prevention.

Moreover, as a part of the conference I also organized an international seminar, which which happened 10. - 14.5. 2016 and has a goal of helping identify victims of sexually abused children online with using open sources. Target audience of this seminar were police officers in a specialized units for fighting against sexual abuse of children online, and fighting child pornography, as well as officers from prevention units. Over 20 people attended this seminar from 6 member countries.

### IX.2 Other activities

She currently works as the Head of the Department of Informatics and Management of the Academy of the Police Force in Bratislava. She actively cooperates with the Police Academy of the Czech Republic in Prague and develops cooperation with professionals - police practice. She leads students within the student research and professional activities (ŠVOČ) and organizes committees of international scientific conferences.

<sup>[1]</sup> The courses listed in this category are listed in connection with the system of lifelong learning, which the scientific and pedagogical employees of the Academy of the Police Force in Bratislava implement with the entities of the Ministry of Interior of the Slovak Republic and other entities of the security administration.
