1.	<p>Mobile, data, sampling and analytical center for crisis management: Project of an international scientific research task, APZ, 2021, international, responsible solver of a partial scientific task, VYSK no. 257.</p> <p>Project of an international scientific research task, which is focused on a comprehensive solution to the problems of analysis, collection and evaluation of data from modern protection and diagnostic systems, implemented in order to ensure integrated border management. The main goal of the scientific research task is to build, develop and automate a mobile control and testing center of security and diagnostic systems in connection with highly topical and addressed issues of entry and movement of persons in border traffic. The project will propose solutions for protection and diagnostic systems integrating hardware and software tools for data collection and analysis from sensory subsystems and elements and the necessary evaluation logic as well as a modern screening solution with artificial intelligence support ensuring the fastest possible identification of at-risk people crossing the Slovak border, of the Republic.</p>
2.	<p>“HSQA” – Hungarian–Slovak Development of a Quality Assurance Mechanism on Border Management</p> <p>An international Hungarian–Slovak project aimed at improving and harmonising the border management system through the implementation of quality assurance mechanisms in the field of border control and the protection of the external borders of the European Union. Its objective is to develop methodologies, manuals, and standardised procedures for assessing and enhancing the effectiveness of border control, to support specialised training for border police officers, and to strengthen cooperation between Slovakia and Hungary in line with the principles of European Integrated Border Management. The project also contributes to increasing security at the EU’s borders and to improving the preparedness of security forces to address challenges related to migration and cross-border crime.</p>
