The study is based on the foundation highlighted by the statistical expression of the development of crime in the field of illicit armaments and arms trafficking. The author is of the opinion that adopting the idea, the need to declare another weapons amnesty, may raise questions in a certain part of society. It is a reality, but it is objectified by the research that the arms amnesty has its justification.</p> <p>According to the criteria of the Scientific Board of the Academy of the Police Force in Bratislava determining the segmentation of outputs, this is a scientific study that has an objective significance in several countries not only in the same region, which is why the author dared to classify this output in category A +.</p>
